

Model 200

Model 200 - Economical mini cold sealing machine

The Model 200 is a small tabletop cold seal machine, ideal for mailing books, replacement spare parts, etc.

Using precut sheets of single face corrugated or paper backed microfoam, the Model 200 mini sealer produces packages up to 20" wide by 2 1/2" deep.

This simple hand fed unit can produce up to 250 packages per hour, and is ideal for low cost, low volume packaging operations.
